

AWALU BAWA PROJECTS AND INNOVATIONS

1. I am the founding principal and the one who established the Yendi College of Health Sciences, introducing the first ever and the only Psychiatric Nursing Programme in the whole of Northern Ghana
2. I am one of 5 committee members who undertook a feasibility study leading to the establishment of Health Assistants Training Schools that subsequently transformed to Nursing Training Colleges all around the Country
3. I wrote the proposal to instigate the introduction of terminal degrees (PhD) for principals, which has borne fruit
4. I constructed 4 projects within 5 years of my stay at NTC Lawra from IGF: the projects include; a skill lab, a dining hall, an office block and washrooms for tutors and students and a library complex.
