

#### D. 100% Skilled Delivery at the Facility (2022 – Present)

- Objective: Increase facility-based deliveries and reduce maternal/neonatal complications.
- Action: Collaborated with Traditional Birth Attendants (TBAs) and community leaders (Traditional Priest) to encourage hospital deliveries.
- Impact: Achieved 100% skilled delivery rate, reducing home births and associated risks.

#### E. Turkey Berries Drink for Anemia Prevention in Pregnancy (January 2024 – Present)

- Objective: Combat iron-deficiency anemia among pregnant women.
- Action: Introduced a locally prepared turkey berries (Nsusua) drink as a natural iron supplement.
- Impact: Reduced anemia cases and improved maternal hemoglobin levels.

#### F. Vaccines Fridge (2022 – Present)

- Objective: Ensure proper storage of vaccines to maintain potency.
- Action: Secured and maintained a functional vaccines fridge for the facility.
- : Improved immunization coverage by preventing vaccine spoilage.

### 3. Conclusion

These initiatives demonstrate my commitment to improving maternal and child health through innovation, community collaboration, and resource optimization. I remain dedicated to advancing healthcare delivery and look forward to contributing further in a higher capacity.
